

# ST. PAUL'S COLLEGE

## ANNUAL SCHOOL PLAN

*2016-2017*

## OUR SCHOOL MISSION STATEMENT AND SCHOOL MOTTO

The offering to Chinese youths of a modern, liberal education in the English language (but including the subject of Chinese Language in the curriculum) upon Christian principles, Protestant and Evangelical, as professed by the Sheng Kung Hui. Our school motto is **The Fear of the Lord is the Beginning of Wisdom** 寅畏上主是為智之本 (Proverbs 9:10)

## OUR GOALS

The educational goals of the College, in accordance with its mission, may be described as:

- To cultivate a healthy attitude to life and the world and to expose boys to the Christian message.
- To inculcate civic awareness in boys and to develop them into responsible and useful citizens of community with respect for intellectual property, human rights, freedom and justice.
- To enable boys to develop their intellectual potential fully, to think logically and creatively, to study and solve problems independently, and to communicate effectively in English and Chinese.
- To develop boys' skills and abilities in Information Technology and to arouse interest in life-long learning.
- To develop boys' physical and musical skills and abilities and to encourage enjoyment in sports and music.
- To encourage the appreciation of the arts and development of artistic talents and skills.
- To promote respect for the views and opinions of others, harmonious relationships in school, the family and the community, and participation in community affairs.
- To develop in boys the ability to cope with adverse situations and to overcome emotional problems.

## OUR ETHOS

Our ethos is summed up in the College song: "Brothers here we stand together, all for each and each for all". The College strives to provide an active, caring, happy and healthy environment for boys' learning based on mutual respect and trust.

## OUR ENVISIONED FUTURE

For the College to be recognised locally and internationally as one of the best schools for the education of boys.

## OUR STRENGTHS

- We have a long tradition of educating boys and many of our alumni take up leading roles in society serving Hong Kong in such diverse areas as politics, government, religion, education, medicine, law and social welfare.
- As a member of the International Boys' Schools Coalition, we are now part of the wider international network of schools that are dedicated to the education and development of boys.
- We are a Christian school and students are taught to use Christian values as their guiding principles in life.
- The College Council is very dedicated and supportive of the programmes initiated by the College.
- We are blessed with many experienced staff members who are committed to their work and also younger members of staff who have added much of their enthusiasm and vitality to College life.
- The College has a strong link with the alumni and many of them are not only supportive but also directly involved in various school programmes such as the careers awareness talks and the alumni mentorship programme.
- Our boys are talented in many areas, as evidenced by the awards and prizes that they have won in local and international competitions.
- Our boys enjoy plentiful opportunities for international exposure through programmes such as student exchange, our Global Classroom Programme and the Community Service Project.
- The College places significant emphasis on character formation of boys through the annual Form One Growth Camp and the Form Four Outward Bound training programme.
- The College enjoys close ties with the Parent-Teacher Association and works in partnership with parents for the development of our boys.

## OUR CHALLENGES AND OPPORTUNITIES

- With many DSS schools and international schools offering diverse programmes and quality education to service the Hong Kong community, there is a need for the College to differentiate and determine its positioning.
- All the ongoing curriculum reforms and initiatives from the EDB require teachers to be highly adaptive and flexible but they also necessitate greater curriculum integration and staff collaboration.

## OUR PRIORITIES

For the past three years (2012-2015), the energy of the College was on taking stock of what we had done, and identifying areas of success as well as areas for improvement. Despite the change of events that distracted some of our attention, “Reflect, Review and Refine” remained our focus in the 2012-2015 school development cycle. To know where we stand is an essential step in forward planning.

“Metamorphosis” has been chosen to be the theme of the 2015-2018 school development cycle because it represents the collective desire for progress and renewal. With “academic excellence” being made the top priority in the 2015-2018 school development cycle, we hope to foster a culture of excellence among both teachers and students. In our pursuit of academic excellence, there will be different emphasis in each year.

2015-2016 is the year for balance and coordination which will be achieved through the reorganization of programmes and administrative structure. It is also the year for strengthening discipline because learning and discipline go hand in hand together.

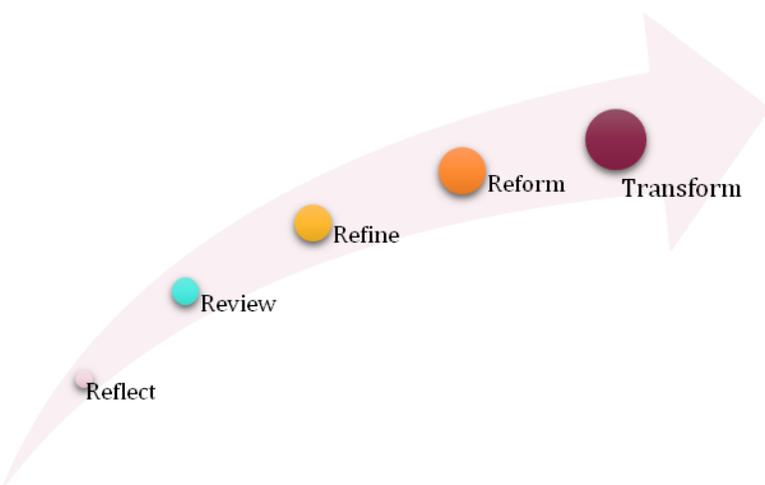

2016-2017 is the year of celebration as we celebrate the 165<sup>th</sup> anniversary of the founding of the College. E-learning, which enables students to access knowledge outside the traditional classroom through electronic means, is also consistent with the theme of our anniversary celebration which is green living.

2017-2018 is the year for consolidation and further evaluation in preparation for the next development cycle.
